(a) Total number of wage or salary earners in employment excluding employees in the defence forces at home or abroad and Government "relief" workers. (b) Figures for June, 1933, July, 1939, and June, 1943, were obtained from the Census, National Register and Civilian Register respectively. (c) Excludes working proprietors. (d) Average earnings per male unit employed. Male units represent total male employment plus 45 per cent. of female employment. Seasonally adjusted. (e) Monthly average for years, and monthly totals. (f) June, 1933. (g) July, 1933. (h) July, 1939. (i) Averages for year. (j) June, 1945. (k) June, 1946. (l) June, 1947. (m) From July, 1947, covers all State and Commonwealth railways systems. (n) Affected by industrial disputes.

For meaning of symbols ..., *, †, —, see page 1

(a) Excludes defence forces, at home or abroad. Estimated total employment is based on Pay-Roll Tax returns and records of Government employment. Figures from June, 1945 (Factories, July, 1948) subject to revision. (b) Includes all employees of Australian Government authorities (Commonwealth, State and Local) on services such as railways, tramways, banks, post office, air transport, education, broadcasting, police, public works, factories and munitions establishments, migrant hostels, &c., as well as administrative employees within Australia. (c) Includes Education, Health, Hotels and Restaurants, other Professional and Personal Services (except female private domestic). (d) Figures for June, 1949, were affected by the Australia-wide black coal dispute (27th June to 15th August).

For meaning of symbols *, †, see page 1.

AVERAGE WEEKLY TOTAL WAGES PAID AND AVERAGE EARNINGS.

The following figures are derived from employment and wages recorded on Pay-Roll Tax returns (which cover approximately 80 per cent. of total employment) and from estimates of the unrecorded balance. Pay of members of the armed forces is not included. The figures are not seasonally adjusted. A seasonally adjusted monthly index of average weekly wage earnings is published on page 2.

(a) Includes Australian Capital Territory. (b) Includes Northern Territory. (c) Total wages as above divided by total civil employment expressed in male units (i.e., total male employment plus 45 per cent. of total female employment).

NOTE.—Comparisons as to trend should be made for complete years or corresponding periods of incomplete years. Quarterly totals and averages are affected by seasonal influences.

UNEMPLOYMENT AND SICKNESS BENEFITS.

Compiled from information furnished by the Department of Social Services on the operation of the *Unemployment and Sickness Benefits Act 1944* (from 1st July, 1947, Part VII. of the *Social Services Consolidation Act 1947-1950*), which came into effect on 1st July, 1945.

TRADE UNION UNEMPLOYMENT RETURNS.

The only regular records of unemployment available in comparable form over a considerable period are the quarterly percentages reported by trade unions to the Commonwealth Statistician. The membership of the reporting unions consists predominantly of males, and represents at present about 55 per cent. of the total trade union membership and between 25 and 30 per cent. of all wage and salary earners. For some States the returns are a more representative sample than for others. This table, therefore, should not be read as indicating the relative degree of unemployment amongst unionists in the individual States but as an indication of trend of unemployment as reported by secretaries of trade unions.

(Per cent.)

(a) Prior to July, 1948, included Soups (1948-49 exports £1,103,000).

For meaning of symbols †, see page I.

EXPORT PRICE INDEXES.

These index-numbers are compiled from the prices of 20 commodities which normally constituted about 80 per cent. of all exports. For some metals and for wheat (since July, 1945) the index of prices is deduced from average value of current sales or shipments and hence shows some irregularity.

SIMPLE AGGREGATIVE INDEX : FIXED WEIGHTS.

In this index the prices of the commodities are multiplied by the average annual exports (production in the case of gold) during the three years 1933-34 to 1935-36.

(Base of each Section : Average 3 years ended June, 1939 = 100.)

Period.	Wool.	Wheat.	Butter.	Metals. (a)	Meats. (b)	Sugar.	Dried Fruits. (c)	Tallow.	Hides. (d)	Gold.	All Groups.

(a) Silver, copper, tin, zinc, lead.

(b) Beef, lamb, mutton, pork.

(c) Sultanas, leixias, currants.

(d) Cattle hides,

calf skins. (e) For All Groups (including Gold)—applicable from 1936-37.

(f) For All Groups (excluding Gold)—applicable

(g) Nominal.

For meaning of symbol †, see page 1.

EXPORT PRICE INDEXES—continued.

RECENT TRENDS—EXPORT PRICE INDEX—WOOL AND "OTHER GROUPS".

Reference to the group indexes in the table on page 16 hereof will show the great increases and the wide dispersion of prices of export commodities in recent years. In particular, very great movements upwards and downwards occurred in the price of wool during the twelve months ended June, 1951. Similar, but less marked, movements have occurred in prices of metals and hides. Since wool is a predominant export (with 46 per cent. of the Base Aggregate of the index) fluctuations in wool prices obscure the movements affecting the other components in the All Groups index. For purposes of comparison they are shown separately below.

(Base of each Section : Average 3 years ended June, 1939 = 100.)

Year ended June—	Wool.	Other Groups.	All Groups.	Month.	Wool.	Other Groups.	All Groups.

(a) Nominal.

MONTH-TO-MONTH INDEX : CHANGING WEIGHTS.

The index-numbers in the two preceding tables, while they indicate satisfactorily the general trend of the market, take no account of the relative quantities actually sold at the different prices ruling during each month. In consequence the index-numbers do not give an adequate indication of the significance of the price movements as they actually affected current sales. This is shown more accurately by the index-numbers (including gold) in the following table, in the computation of which the "quantity-multipliers" are changed each month. The index-numbers are designed solely for comparisons of current prices with those of the corresponding months, or periods of months, of the preceding year.

(Base : Weighted Average Price level in corresponding months of preceding year = 100.)

Month.	Month stated compared with same month of preceding year.						Period of trade year ending in month stated compared with same period of preceding year.

WHOLESALE PRICE INDEX.

BASIC MATERIALS AND FOODSTUFFS.

The price quotations used in this index have in the main been obtained directly from manufacturers and merchants, and, with a few important exceptions, from Melbourne sources. Apart from home-produced building materials, coal and one or two minor commodities, however, the price movements may be taken as representative of variations in wholesale prices of basic materials in most Australian markets. The weighting system adopted is based on average annual consumption during the years 1928-29 to 1934-35 inclusive.

(Base : Average 3 years ended June, 1939 = 100.)

Period.	Basic Materials.							Food-stuffs and Tobacco.	Basic Materials and Foodstuffs.

(a) Represents only such imported commodities as are included in the wholesale price index. This index does not measure changes in price of imports generally. (b) This computation includes the price of raw wool for local manufacture. For computation using auction room price of wool see note (b) at foot of following page.

For meaning of symbol *, see page 1.

(a) New series. Recomputed to the base : Average 3 years ended June, 1939 = 100. (b) " Sensitive Series " prior to July, 1947 : Thereafter " General Purpose Series ", on base : Year ended August, 1939 = 100. (c) New Series. Base : 1949 = 100, (d) Index-numbers computed on price of raw wool for local manufacture. For computation using auction-room price of wool, see note (b) immediately below.

Note (b)—

WHOLESALE PRICE INDEX.

BASIC MATERIALS AND FOODSTUFFS.

Legislation which became effective on 14th December, 1950, had the effect of reducing (by bounty) the price paid for raw wool for local manufacture in Australia below the open market (auction room) price. Such reductions were virtually retrospective to August, 1950, and continued until 30th June, 1951. The effective prices paid for raw wool for local manufacture (i.e., auction room price less bounty) have been used in calculating the index published on page 18 hereof. Below are shown these same indexes calculated on the auction-room prices for wool. Only the four columns marked (b) on page 18 are affected, and only these are shown below.

Period.	Textiles.	Total Basic Materials.	Goods Principally Home Produced.	Total All Groups.

SECURITY PRICE INDEXES.

In comparing movements in the two sets of index-numbers on this page, attention should be paid to differences in the methods by which they have been constructed, and in the nature of the companies and the types of shares included in each index. These are outlined in the footnotes to the table.

(Base : Average 3 years ended June, 1939 = 1,000.)

Period.	New South Wales : Ordinary Shares.(a)							Queensland : Ordinary Shares.(b)

(a) Compiled by the New South Wales Government Statistician. The index-numbers are based on the prices of the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales. They represent unweighted averages of the mean monthly prices per £1 of paid-up capital. Adjustments are made where capital is written off or bonus shares issued. Recomputed from original base, par values. (b) Compiled by the Queensland Bureau of Industry. The index-numbers are based on the prices of the ordinary shares of 21 representative Queensland companies, and the preference shares of three companies whose ordinary shares are inactive. The index-numbers represent unweighted averages. Mean monthly values are used. Recomputed from original base, April, 1928. (c) These shares relate to leading companies and do not include bank shares or mining shares.

RETAIL PRICE AND WAGE-RATE INDEXES.

In the tables on this and the following page the index-numbers have been recomputed uniformly to the base average 3 years ended June, 1939 = 1,000 in order to facilitate comparisons with other data. The absolute index-numbers differ, in consequence, from those appearing in other publications of the Bureau.

(Base : Average 3 years ended June, 1939 = 1,000.)

(d) Payable as from 1st May. (e) Payable as from 31st July. (f) Payable as from the beginning of the first pay period commencing in December, 1950. (g) Payable as from 30th October. (h) Payable as from 23rd October. (i) Payable as from 7th December. (j) Payable as from 4th December. (k) Payable as from 18th December. (l) Payable as from 5th February. (m) Payable as from 29th January. (n) Payable as from 30th April. (o) Payable as from 30th July. (p) Payable as from 23rd July.

PRIMARY PRODUCTION PRICE INDEXES.

The annual index-numbers in the following table have been recomputed to the base average 3 years ended June, 1939 = 100 from the revised series published in *Production Bulletin*, Part II. They are based in general on prices realized in the principal markets of Australia.

The monthly index-numbers (based on the nearest equivalent wholesale price quotations) are intended progressively to forecast the point which the annual index-numbers will eventually reach, and so provide a preliminary figure for the latest full year pending the completion of the annual census of production. The preliminary index-numbers will be revised as each production census is completed.

(Base : Average 3 years ended June, 1939 = 100.)

(a) Represents only such imported commodities as are included in the wholesale price index. This index does not measure changes in price of imports generally. (b) Covers Food and Groceries, House Rent, Clothing and Miscellaneous Items. (c) Preliminary figures subject to revision, based on average wholesale prices in the period shown. See note at head of page 23. (d) Index-numbers computed on price of raw wool for local manufacture. For computation using the auction room price of wool, see note (b) at foot of page 19.

For meaning of symbols †, *, see page 1.

BUILDING PERMITS : SIX CAPITAL CITIES AND SUBURBS.

(a) Excludes suburbs of Hobart.

NOTE.—The National Security (Building Control) Regulations, which operated from 5th December, 1940, placed the granting of building permits for new buildings or alterations costing more than £5,000 under the control of the Commonwealth Treasurer. Various amending regulations made the control more stringent. On 19th June, 1942, the control passed to the Department for War Organization of Industry, after which date only alterations costing less than £25 could be made without consent. From 31st August, 1945, when control passed to the Department of Works and Housing, consent was not necessary for the erection of a dwelling house costing less than £1,200 or for repairs and alterations to a residential building costing less than £150 in any financial year. As from 1st November, 1945, the Commonwealth Government relinquished control over building permits and delegated its powers under National Security Regulations to the States until State legislation had been introduced. This action has been taken in all States except Tasmania, which discontinued control over building permits from 31st December, 1946. The "value of permits" shown above relates to the value of building permits issued by local government authorities and not to approvals granted under the Regulations. The values shown exclude, in general, air raid shelters and alterations for protection against air raids.

BUILDING OPERATIONS : METROPOLITAN AND PROVINCIAL.

(Figures for Government Buildings relate to contracts let or day-labour work commenced. Figures for Private Buildings relate only to Permits issued by Local Government Authorities. Alterations and additions are included.)

(a) Includes buildings erected under government home building schemes where permits obtained from local government authorities.
(b) Includes Northern Territory. (c) Includes 86 country local authorities from September quarter, 1946. See E below. (d) Previously Hobart city area only. From September quarter, 1946, includes Hobart and suburbs. (e) Includes all areas outside Hobart and suburbs from September quarter, 1946. See F below. (f) Includes all areas outside Brisbane and suburbs from September quarter, 1947. See C below.

NOTES.

C. Includes the Cities of Bundaberg, Cairns, Charters Towers, Gympie, Ipswich, Mackay, Maryborough, Rockhampton, Toowoomba, Townsville and Warwick, and the Towns of Bowen, Charleville, Dalby, Innisfail, Longreach, Redcliffe, Roma, Southport, and Stanthorpe to June quarter, 1947, thereafter all areas outside Brisbane and suburbs.

D. Includes Local Government areas, and estimate for unincorporated areas.

E. Includes 15 country local authorities, representing approximately 30 per cent. of provincial population to June quarter, 1946. Thereafter includes 86 country local authorities, representing approximately 86 per cent. of provincial population.

F. Launceston only to June quarter, 1946, thereafter all areas outside Hobart and suburbs.

NOTE.—The values shown exclude, in general, air raid shelters and alterations for protection against air raids.

For meaning of symbols .., —, see page 1.

(a) Includes sawn sleepers. (b) Household, commercial and industrial cooking stoves to 1947-48—thereafter household cooking stoves only.
(c) Household, commercial and industrial cooking stoves, ranges, stovettes and cookers to 1944-45—thereafter household cooking stoves only.
(d) In terms of '000 standard square yards to 1944-45, thereafter in terms of '000 selling square yards. A standard square yard contains a given volume of sheet; a selling square yard represents the area covered by the finished sheet regardless of its thickness or corrugation. (e) Average of six months' production. (f) Partly estimated.

For meaning of symbols .., †, *, — see page 1.

PRODUCTION OF TEXTILES AND CLOTHING.

Period.	Cotton Textiles.		Pure Rayon Dress Fabrics.	Wool Textiles.			Boots and Shoes (not rubber).	Shirts (other than Knitted), Men's and Boys'.
	Cotton Yarn.	Cotton Woven Textiles (excl. Towels and Towelling).		Produced by Wool Scourers and Woollen Mills.				
				Scoured Wool.(a)	Yarn.	Woven Cloth.

For meaning of symbol †, see page 1.

GOVERNMENT RAILWAYS: FREIGHT, PASSENGERS AND REVENUE.

The following table shows statistics of freight and passengers carried and of revenue earned on the five Mainland State Railways to the end of June, 1947. From July, 1947, particulars relate to all State and Commonwealth Railway Systems.

The daily average number of passenger-journeys is obtained by dividing the monthly totals by the *total* number of days in the month.

Period.	Freight Carried.		Passenger-Journeys.	Gross Revenue.	Net Revenue.
	Net Ton Miles.	Average haul per ton.			
	Daily Average. '000.	Miles.	Daily Average. '000.	Per Month. £'000.	Per Month. £'000.

WHOLESALE TRADE.

An indication of fluctuations in the value of wholesale trade is given by the returns made under the Sales Tax Acts. The returns do not relate to all wholesale trade, and exclude sales of vendors trading only in exempt goods. They do not necessarily cover a constant proportion of all trade. The effects of legislation and administrative changes on the recorded values of taxable and exempt goods respectively are somewhat uncertain, but total recorded sales are affected in smaller degree. Insufficient information is available to enable adjustments to be made to the crude figures on this account. Monthly totals are compiled on a basis comparable with the monthly averages for preceding years.

Taxable Sales—Rates.										

(a) The rates of tax per cent. were 5 from 22.9.38; 6 from 9.9.39; 8½ from 3.5.40; 5, 10 and 15 on different classes of goods from 22.11.40; 5, 10 and 20 from 30.10.41; 12½ and 25 from 1.5.42; 10 and 25 from 15.11.46; 8½ and 25 from 8.9.49; 8½, 10, 25 and 33½ from 13.10.50. From 21.7.43, rationed clothing, &c., were reduced to 7½ per cent. and was exempted from 15.11.46. With certain specified exemptions, all goods sold in Australia, including imports, are taxable. The list of exemptions was extended as from 13.12.38; 26.9.39; and restricted as from 3.6.40; 22.11.40; 30.10.41. As from 1.5.42, 3.7.43, 21.7.43, 8.9.44 there was a partial restoration of former exemptions. As from 13.9.45, 10.4.46, 15.11.46, 20.9.47, 9.9.48, 8.9.49 and 13.10.50, further former exemptions were restored and additional exemptions granted.

For meaning of symbols . . . , * , † see page 1.

RETAIL TRADE.

Statistics of retail sales are collected in three States but are available for publication in only two, namely, New South Wales and Queensland. In New South Wales the Retail Traders' Association Research Bureau, in co-operation with the Commonwealth Bank, collects returns from a number of large Sydney stores. In Queensland returns are collected by the Bureau of Industry from twelve large department stores in Brisbane and their branches in country towns. It is uncertain to what extent the department store figures are representative of all retail trade.

(a) Compiled from returns lodged under *Banking Act* 1945. Averages of four or five weeks ended on last Monday in period to December, 1946; thereafter averages of four or five weeks ended on last Wednesday. (b) Ten months ended June, 1946. (c) Includes Rural Department of Rural and Industries Bank of Western Australia for July, 1946, and following months. (d) See footnote (d) on previous page. (e) Debits to Customers' Accounts relating to the transfer of accounts from the Queensland National Bank Ltd. (in voluntary liquidation) to the National Bank of Australasia Ltd. have been excluded from January, 1948.

For meaning of symbol — see page 1.

BANK CLEARINGS.(a)

Statistics of debits to customers' accounts were not available prior to September, 1945 (for September, 1945, onward see page 48). In their absence bank clearings form a useful index of the money-value of cheque payments. Since they do not include cheques deposited in the banks on which they are drawn, the figures are not exhaustive, and their comparability is sometimes impaired by the effects of banking amalgamations. Cheque clearings connected with the redemption or issue of Treasury Bills have been excluded from the following table, but adjustments have not been made for other sporadic transactions concerned with public finance.

For meaning of symbol —, see page 1.

OVERSEA MIGRATION.(a)

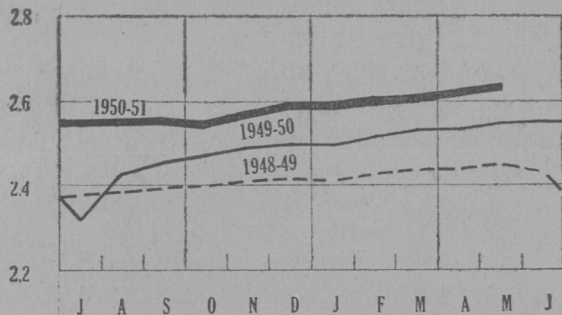

Permanent migration refers to persons, other than Australian troops and their dependants, intending residence for one year or longer—in Australia in the case of arrivals, and abroad in the case of departures. Temporary migration refers to persons intending residence for shorter periods, together with Australian troops and dependants from July, 1947, onwards, irrespective of length of intended residence.

Period.	Temporary		Permanent.
